

COCHIN SHIPYARD LIMITED
(A Government of India Enterprise)

PURCHASE ORDER TECHNICAL SPECIFICATION

PO NO. 4050005733 & 4080044995, CONTRACT NO. 3010001589

**DEVELOPMENT OF OFFICIAL WEBSITE & ADMISSION PORTAL
FOR METI (MARINE ENGINEERING TRAINING INSTITUTE),
COCHIN SHIPYARD LIMITED AND FOR PROVIDING
ANNUAL MAINTENANCE SUPPORT SERVICES (AMC)
FOR 3 YEARS**

Cochin Shipyard Limited (CSL), hereinafter referred to as the "Client/ CSL," has engaged M/s TELECON SYSTEMS LIMITED, hereinafter referred to as the "Service Provider", for "Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and for providing Annual Maintenance Support Services (AMC) for 3 years" (hereinafter referred to as 'Services') at CSL.

This Purchase Order Technical Specification (POTS) shall specify in detail the technical specification, service level arrangements, escalation matrix including (without limited to) the general terms and conditions under which the Services shall be delivered by Service Provider.

The POTS together with the accepted Request Proposal and the Service Order shall together form the agreement between the parties in relation to the Services, in the order of priority as specified herein.

- i. POTS
- ii. Request for Proposal
- iii. Service Order

1. SCOPE OF WORK

1.1 Scope in detail

CSL is inviting proposals from qualified website design & development companies for creating an official website & admission portal for METI including design, development and deployment of a dynamic and professional responsive website including payment gateway tailored to meet the specific requirements.

CSL METI conducts different courses of different duration for students and marine engineers. CSL intends to develop a full-fledged web application for carrying out the day to day activities of the METI and so the application is expected to facilitate the features including but not limited to the following:

- (1) Facility for creation and scheduling of courses periodically by concerned officer (course in charge).
- (2) Facility for students and applicants for online registration and online submission of applications for joining the courses they prefer.
- (3) Facility for applicants to remit payments online for different purposes like registration fee, course fee etc.
- (4) Facility for the METI officer/staff for verifying and validating the applications submitted by the applicants.
- (5) Facility for the students to view contents like profile, course materials, status of fee paid etc.
- (6) Facility for Alumni registration for former students

The detailed scope of work for the functional requirements is given at Annexure 1/A

The scope of work contains three sections which are summarized below: -

A	Design & Implementation of professional grade official website & admission portal for METI
	This includes planning, design, development, deployment, documentation, training, backup and restore of entire website and DB. Initially the developments shall be done in the development server and after obtaining the approval from the concerned officer/authority, it needs to be moved to the production server.
B	Post Go-Live AMC Support for 3 Years
	For resolving on time, the issues, bugs and errors in the website application.
C	Rate Card for new or additional developments

	For implementing new requirements, enhancements and additional features as and when required.
--	---

A. Implementation of CSL METI OFFICIAL Website

A.1 TECHNICAL REQUIREMENTS

1. CSL METI Official Website & Admission Portal has to be developed as a web based application with new responsive design with latest web trends. The website shall be compatible with and shall work flawlessly in all popular Internet browsers like Microsoft Edge, Mozilla Firefox, Google Chrome, Apple Safari etc. The changes/modifications include modifying the appearance and user interface of the website as per the latest website standards.
2. Front-end of website shall be designed and developed in a visually rich and appealing format. All digital resources and assets like images, photographs and videos will be provided by CSL METI.
3. The required technical platform of the major components of the application is given below:

Web/Application Server	Apache Tomcat Version 10.0 or higher/ Apache 2.3 or higher stable version
Server-Side Scripting Language	Java 21 or higher/PHP 8.2 or higher
DBMS (Shall be arranged by CSL)	Microsoft SQL Server Enterprise Edition 2019.
Operating System (Shall be arranged by CSL)	Microsoft Windows Standard Edition 2019.
Hardware (Shall be arranged by CSL)	Virtual Machines running on existing hardware infrastructure in CSL

4. All software items/products other than those arranged by CSL if any, shall be arranged or procured by the Service Provider along with required genuine licenses in sufficient quantities. All the products and licenses are to be procured in the name of Cochin Shipyard Limited. The details of all the products and licenses which will be procured by the Service Provider are to be submitted as per Annexure 5/A. The Service Provider has to produce and submit to CSL all the original certificates and documentation regarding the licenses from the software product OEMs during installation. Apart from the options for the major components listed in the above table, the Service Provider can use any tools, libraries, software packages etc. for the successful and effective implementation of the application. All such items shall be genuine

and licensed or be free to use for commercial purposes. The scope for future enhancement and scalability of the application must also be kept in mind while choosing such tools for the implementation.

5. CSL will be providing different landscapes including but not limited to Development, Production, Backup and DR (Disaster Recovery). All the required hardware platform for the above landscapes will be arranged by CSL. The hardware resources for the above landscapes will be provided by CSL after getting the sizing recommendations and suggestions from the successful Service Provider. Initially the development server will be provided. Service Provider shall do all the required migration and porting of the application to other landscapes as and when required. The detailed schedules for the migration of completed developments to other landscapes shall be shared by CSL.
6. Development, modification, coding and implementation will be permitted only in the Development landscape. The Production landscape shall be populated with only relevant bug free objects exported/migrated from the Development landscape after completing the testing process and obtaining approval from the concerned officer.
7. The Service Provider shall get approval for the design and layout of the web pages from CSL before starting the implementation. The Service Provider shall be responsible for doing the developments in development server as per the scope and after getting approval from CSL.
8. The Service Provider shall ensure that backup scripts for taking daily scheduled backups of all required folders, database objects and other scripts are prepared, tested, implemented and scheduled successfully. The backup shall be saved to destination storage locations suggested by CSL. The Service Provider shall demonstrate the successful restoration of the application using the backup taken by the above schedules.
9. Integration APIs with external systems.

A.2 FUNCTIONAL REQUIREMENTS

The functional scope of the development of official website & admission portal for METI is attached in the **Annexure 1/A**.

A.3 GENERAL REQUIREMENTS

1. **Project Manager & Team:** The Service Provider shall assign competent team members for completing the project. A project manager (PM) with adequate experience and competency shall be deployed by the Service Provider and this PM shall be responsible for the entire implementation of the project. The PM shall be the single point of contact for all the project activities. The PM shall coordinate the discussions and activities with CSL coordinator. The CSL

reserves the right to send back or reject the PM/programmer/developer/functional/any resources, if found incompetent for the project and the Service Provider shall depute a competent resource maximum within three days and shall ensure that proper knowledge transfer (KT) has been completed without affecting the project progress and schedules.

The Project manager shall submit detailed project plan with activities and milestone dates to CSL within seven days from the start of the project. The Kick-off meeting of the project will be on the very next day or as decided by the CSL.

2. **Working Mode:** - All team members including the Project Manager can do their work in online mode and need not work onsite. However, the PM and other important team members if any shall come to CSL for the Kick-Off meeting and initial overall requirement study for one or two days.
3. Also, in case of any important, critical or urgent situations, the PM and other respective development team members shall work onsite when demanded by CSL. The final decision on the urgency of such situations will be taken by CSL only. The PM and team members shall avail the facility to work offsite on development machines using the VPN access provided by CSL after getting the approval from the CSL. The PM and team members shall abide by the prevailing information/cyber security policies in CSL if they work onsite or use VPN.
4. Expenses like travel charges, phone charges, food and accommodation charges etc. of the PM and the team members will not be borne by CSL both in offsite and online mode.
5. **Training:** - The Service Provider shall arrange necessary onsite training to the users of CSL and IT team members. The training sessions shall cover the functional as well as technical features of the system and hands on training has to be arranged for the effective understanding of the application. Online training sessions shall also be arranged if required.
6. **Source Code, Documentation and other Materials:** - All the source codes, documentations, user manuals, training resources and any other materials in any form, hard copy or soft copy, developed by the Service Provider as part of this project shall be under the sole ownership of CSL and are to be transferred to CSL before Go-Live.

User Manuals shall contain detailed description of the application along with the screenshots of GUI and the explanation of all functionalities of the system.

7. **Progress Review Mechanism:** - There will be daily/weekly/monthly/as needed progress review meetings to assess the status of the project. Project Manager shall be responsible for coordinating the status updates. Status update reports shall be submitted by PM on regular intervals and as and when required.

B. Post Go-Live AMC Support for 3 Years

1. The Service Provider shall ensure that the application developed is totally bug free and will deliver optimum performance in the production server. However, if any unforeseen error, issue or bug was found in the production system, the Service Provider shall attend and resolve the issues at the earliest.
2. There shall be a project manager to whom the CSL is contacting for the support and shall be the single point of contact for AMC support. If the Project manager is different from the project manager of implementation, Service Provider shall make proper arrangements to transfer the knowledge to the new project manager. The change in project manager shall be informed to the CSL in advance for approval.
3. The project manager shall assign the team members for doing the AMC Support with the approval of CSL before the AMC period start. The project manager and the team member can work offsite for the support using VPN access. But the work to be concentrated and needs to complete on time. If any change in the team member shall be intimated and get it approved from the CSL. The CSL reserves the right to send back or reject the PM/any resources, if found incompetent for the project and the project manager shall depute a competent resource maximum within three days and shall ensure that proper knowledge transfer (KT) has been completed without affecting the support activities.
4. The patch management of the software including but not limited to product upgrades, build upgrades, component upgrades etc. shall be carried out as required.
5. Service Level Agreements (SLA)
 - (a) The resolution time for bugs/production issues (time between the issue is reported and the reported issue stands completely resolved and the erroneous functionality becomes operational again in the production system) will be the basis for defining Service Level Agreements (SLA) for functional & technical support. The priority wise classification of issues and the maximum resolution time allowed are as follow: -

PRIORITY	MAX RESOLUTION TIME
S1 Tickets: 1 (High) Business Showstopper	8 Hours
S2 Tickets: 2 (Medium)	16 Hours (Two working days)
S3 Tickets: 3 (Low)	24 Hours (Three working days)

The priority of the tickets will be decided by CSL based on the criticality of the affected business processes. The penalty charges will be applied if the issues

are not solved within the maximum resolution time. The penalty calculation will be done as per the below methodology.

Priority of Tickets	Allotted Time Blocks (hrs)	Hours in a Time block	Total additional time blocks taken for resolution of all respective priority tickets per quarter	Weightage	Penalty Charges
		(A)	(B)	(W)	(P)
High (S1)	0-8	8	a	0.03	$a * 0.03 * (T/4)$
Medium (S2)	0-16	16	b	0.02	$b * 0.02 * (T/4)$
Low(S3)	0-24	24	c	0.01	$c * 0.01 * (T/4)$

- (b) Where T is the total amount quoted for the post Go-Live AMC Support for the year exclusive of taxes. Total penalty per quarter is capped up to 20% of the total AMC contract value for the quarter exclusive of taxes.
- (c) For S1 tickets, if the resolution is not given within the allotted time block, additional time blocks will be starting and get metered from the next hour onwards irrespective of business or non-business hours and working or non-working days. For other priority tickets additional time blocks will be started on CSL business days and hours.
- (d) AMC payment will be done quarterly on completion of the period and closure of all the tickets raised during the quarter period. Penalty charges if any will be deducted from the quarterly AMC charges and payments will be made against the submission of GST invoices by the Service Provider as mentioned in the payment terms.

C. Rate Card for new or additional developments

- a) In case requirements arise for developing new functionalities or modifying any existing functionalities after Go-Live, the requirements will be shared with the Service Provider and the Service Provider shall clearly analyses the requirements. The project to be carried onsite/offsite will be as per the discretion of CSL depends on the criticality of the work.
- b) An estimated time in man-hours (Combination of onsite/offsite, onsite alone, offsite alone) has to be prepared by the project manager of the Service Provider for completing the required new developments or modifications and given to CSL for approval. CSL will go through and study the estimate for the approval through the internal approving mechanism.

- c) Once approved by CSL, the Service Provider shall give CSL the formal proposal containing the description of the new/additional work, estimated man-hours (onsite/offsite) and charges for the activity. The rate will be calculated per the onsite/offsite charges fixed during the tendering process. Year wise rate details for doing the additional development onsite/offsite is as below:

Per Man hour Rate for Additional developments		
Description	Onsite Charges (Excl. tax) Rs.	Offsite Charges (Excl. tax) Rs.
Rate per man-hour for new developments - First year	340.00	200.00
Rate per man-hour for new developments - Second year	357.00	200.00
Rate per man-hour for new developments - Third year	375.00	200.00

- d) After approving the proposal, CSL will give a formal confirmation to the Service Provider to carry out the work as per the approved hours and rates. The project manager of the Service Provider shall ensure to complete the work in the stipulated time meeting all the functional requirements.
- e) However, the payment towards this will be calculated only as per the actual hours consumed and after the successful completion of the work. The payments will be released against the submission of correct GST invoices.

2. CONTRACT TERMS & CONDITIONS

The specific terms and conditions to be observed for the contract are as follows: -

1. Delivery period

- (a) The project (Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years.) has to be successfully as per the below schedule:-

SL NO	MILESTONE	DATE OF COMPLETION
1	System study, design, finalization of web pages with approval from CSL.	T1 = T + 2 Weeks*

2	Full Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited including development, deployment, implementation, documentation, training, backup and restore of entire application and DB as per the scope in the tender document.	$T2 = T1 + 14 \text{ Weeks}$
3	Go-Live in Production	$T3 = T2 + 1 \text{ Week}$
4	Stabilization period	$T4 = T3 + 2 \text{ Weeks}$
5	Post Go-Live Maintenance Support for 3 year	$T5 = T4 + 3 \text{ Years}$

* T is the date of commencement of the work (Kick-off of the project).

- (b) The Service Provider shall mobilize and onboard all the resources including Project Manager within 7 days from the acceptance of the work order. The details of team members shall be submitted to CSL for approval.
- (c) A stabilization period as in the above table shall be there to address all critical/show stopper issues raised during the Go-Live. The Post Go-Live maintenance support will start only after the successful completion of the stabilization period.
- (d) CSL reserves the right to extend the support period further as per the quality of service provided by the Service Provider with same terms and conditions, if situation so warrants on mutual agreement, on completion of the contract period.
- (e) The software developed may undergo the Security audit conducted by the third party arranged by CSL. The Service Provider shall develop the software as per the security standards. If any vulnerabilities are reported during audit, the Service Provider shall rectify the same.
- (f) The Service Provider shall prepare a backup and restoration scripts for the software developed and should provide the detailed document for reference.
- (g) The patch management of the software including but not limited to product upgrades, build upgrades, component upgrades etc shall be carried out as required.

2. Termination of the contract

If the work is not fully completed within the stipulated time period, CSL reserves the right to terminate the contract and get the work completed from other alternative available sources at the risk, responsibility and cost of the Service Provider. CSL will notify the Service Provider in case of poor performance or progress in the project. In case adequate corrective measures are not taken by the Service Provider to improve the performance within 15 days from the date of receipt of such notice, CSL will have the right to terminate the contract either in full or in part and get the work completed by any other agency at the risk and cost of the Service Provider. The extra costs incurred to CSL due to the process of termination will be recovered from the Service Provider from the security deposit/performance bank guarantee/pending invoices if any and if necessary by legal procedures.

Also, CSL will have the right to terminate this contract due to commissioning of any illegal act or causing breach of security by the Service Provider or any of their men, agent at the cost, risk and liabilities of the Service Provider. This contract shall also be terminated by CSL in the event of declared bankruptcy of the Service Provider.

3. Payment Terms:

		TOTAL	15,694.00
		2,824.92	18,519.00
		Amt incl. tax total rounded off	
		RATE CARD FOR ADDITIONAL DEVELOPEMENTS	
		Quarterly after the completion of the development of new functionalities as per the requirements, if any on actuals on receipt of the tax invoice.	
		The rates mentioned in point 1.C "Per Man hour Rate for Additional developments" under the clause "C. Rate Card for new or additional developments" of this work order will be considered for the calculation of the actual amount for new functionality developments based on the approved proposals.	

4. Performance Bank Guarantee (PBG)/ Security Deposit

The successful Service Provider shall remit a Security Deposit of 5% of the total value of the items under the head Implementation and AMC support for 3 years (excluding taxes and duties) in the form of demand draft drawn in favour of Cochin Shipyard Limited, towards the satisfactory performance till the completion of the project (Implementation and AMC for 3 years) plus a grace period of 30 days, if an order is placed on them.

Alternatively, a Bank Guarantee equivalent to above 5% of the total value of the items under the header Implementation and AMC support for 3 years (excluding taxes and duties) as per the format mentioned in ANNEXURE 3/A - BANK GUARANTEE (BG) FORMAT ' from a Scheduled Indian bank to be submitted. The Bank Guarantee shall be valid till the completion of the project (Implementation and AMC for 3 years) plus a grace period of 30 days, if an order is placed on them.

Fixed Deposit Receipt (for equivalent amount of security Deposit required as per tender) in lieu of bank guarantee is also acceptable. Fixed Deposit Receipt shall be in the name of supplier with lien marked in favour of Cochin Shipyard Limited, Kochi

Non-Submission of Security deposit: Exemption towards submission of Security deposit will not be granted to any Service Providers (excluding firms exempted as per govt. guidelines (like MSME /NSIC etc.).

Refund of Security Deposit / Release of BG: Security Deposit / BG will be refunded / released to the Service Provider without any interest, within 30 days after the Service Provider has duly performed and completed the project in all respects.

Forfeiture of Security Deposit / BG: Security deposit / BG shall be forfeited by CSL in case of non-performance of agreed terms and/ or default/breach by Service Provider with application of risk purchase provisions where applicable.

Renewal of Security Deposit: CSL will monitor the validity of security deposit / BG vis-a-vis delivery/completion period as per the contract. In case delivery /completion is likely to be delayed, CSL will instruct the Service Provider to extend the validity of security deposit / BG till the completion of delivery. In case, Bank Guarantee / security deposit is not extended/ renewed by the Service Provider as per the request of CSL, CSL may withhold the equivalent amount from the immediate next payment due for the Service Provider.

5. Certificate - Malicious Code

The Service Provider shall submit Certificate - Malicious Code which was attached in

ANNEXURE 4/A - CERTIFICATE - MALICIOUS CODE

6. Liquidated Damage for Delays

If the Service Provider fails in the due performance of the contract within the time fixed by the contract or any extension thereof, Service Provider shall be liable to pay liquidated damages to the extent of a sum of 0.5% of the contract value per week, subject to a maximum of 10% of the contract value excluding tax. Once the maximum is reached, CSL may consider termination of the contract. In assessing such delays, CSL Project Manager's decision is final and binding on the Service Provider. The penalty for late delivery will be deducted from the bill amount.

7. Practice of Safety Methods: -

The Service Provider shall abide the CSL Safety Rules and carry out the works observing all safety precautions for the safety of his workmen. The Service Provider's supervisor shall ensure that the workmen are using Personal Protection Equipment (PPE) like safety shoes, safety helmets, safety belts, safety ladders etc. while working at heights, and are following the safety methods. Power shut down/permit to work shall be obtained from the concerned authority before commencing works near live power lines. The Service Provider shall be solely responsible for ensuring and observing all such safety measures by his workmen.

8. Maintain safe environment

Upon completion of the work, Service Provider shall clear the area and shall not leave any occupational health / safety/ environmental liabilities to CSL, from their activities at their worksites.

9. Security of CSL

The Service Provider and their resources shall abide by all security rules and guidelines of CSL. Before starting the work, the Service Provider shall intimate CSL the names and address of personnel engaged and obtained necessary entry pass fulfilling the stipulated security rules and regulations. The personnel are bound to maintain the discipline and confidentiality of Cochin Shipyard.

10. Assignment

Service Provider shall not sell, assign, or transfer this order without the CSL's prior written consent.

11. Risk Purchase

If the Service Provider after accepting the work order, fails to provide the services ordered within the delivery period or violate any of the terms and conditions of the work order; CSL shall have the following rights.

- a) To terminate the contract with 15 days' notice forfeiting the security deposit if any.
- b) To initiate alternate procurement action at the risk and cost of the supplier.

12. Termination

The contract with the Service Provider may be terminated in the following circumstances:

- a. In the event of the Service Provider having been adjudged insolvent or going into liquidation or winding up their business or failing to observe any of the provisions of the contract or any of the terms and conditions governing the contract or failure to render the contracted services in time, CSL shall be at the liberty to terminate the contract forthwith without prejudice to any other right or remedies under the contract and to get the work done by other agencies at the risk and cost of the Service Provider and to claim from the Service Provider any resultant loss sustained or costs incurred.
- b. When the Service Provider is found to have made any false or fraudulent declaration or statement to get the contract or he is found to be indulging in unethical or unfair practices.
- c. When both parties mutually agree to terminate the contract.
- d. If the Service Provider transfers or assigns the contract or any part thereof to a third party, without the prior consent of CSL in writing.

3. GENERAL TERMS & CONDITIONS

1. **Force Majeure:** - The contractor shall not be responsible or liable for any failure or delay on its part to fulfil or perform any of the Terms or Obligations, if such failure or delay is caused by any factor or any event beyond the reasonable control of the contractor (including but not limited to Fire, Earthquake, Waves, Insurrection riots, Civil commotion, Government actions, Licenses, Embargoes, Orders or Restrictions). However, the occurrence or cessation of the force majeure situation is to be informed within 15 days from the occurrence or cessation.
2. **Confidentiality:** -This request for proposal and all materials submitted by CSL for this purpose, must be considered confidential, and may not be distributed or used for any purpose other than the preparation of a response for submission to CSL. The Bid documents shall remain the exclusive property of the CSL without any right to the Service Provider to use them for any purpose other than the preparation of a response for submission to CSL. Non-disclosure agreement (NDA) as per "ANNEXURE 2/A - NON-DISCLOSURE AGREEMENT (NDA) FORMAT" shall be signed by the successful Service Provider within one week from the date of formal commencement of the project. Disclosure of any part of the information contained therein to parties not directly involved in providing the services/products requested, could result in disqualification and/or legal action. When submitting confidential material to CSL, the Service Provider must clearly mark it as such.

Also, the contractor acknowledges that all material and information which has or will come into its possession or knowledge in connection with this work or the performance hereof, consists of confidential and propriety data, whose disclosure to or use by third parties will be damaging or cause loss to CSL. The contractor agrees to hold such material information in strictest confidence, not to make use thereof other than for the performance of this work, to release it only to employees requiring such information, and not to release or disclose it to any other parties. The contractor shall take appropriate action with respect to its employees to ensure that the obligation of non-use and non-disclosure of confidential information under this work are fully satisfied.

3. **Indemnity and Insurance:** – The contractor waives all rights against CSL and shall indemnify and hold CSL, its representative agents and employees harmless from and against any and all claims and liabilities, in respect of damages to or loss of contractor's property of all sorts including loss of use thereof and also in respect of all claims for death or injury caused to any of the contractor's personnel, arising out or in relation to the performance of the CONTRACT.

The contractor shall indemnify CSL against all claims for death or injury caused to any person, where a workman or not, while engaged in any process connected with the contract or for dues of any kind whatsoever and CSL shall not be bound to defend any claim brought under the Workmen's Compensation Act 1923, or for dues under the Payment of Wages Act 1936 or under the Employees Provident Fund Act, or the Employees State Insurance Act, or any other Statutory Act or Law from time to time and applicable to the said work.

4. **Jurisdiction and Arbitration:** – All disputes or differences arising under, out of or in connection with the contract shall be subject to the exclusive jurisdiction of the Courts in Ernakulum, Kerala, India.

ANNEXURES

ANNEXURE 1/A - FUNCTIONAL SCOPE

1. The scope of this project encompasses, but is not limited to, the following:

Sl No	Description
1	Design and Development: 1. Create a modern and visually appealing website design. 2. Develop a responsive and user-friendly interface. 3. Implement necessary features to enhance user experience.
2	Content Management: 1. Enable easy content updates and management. 2. Integrate a robust content management system (CMS) for seamless control.
3	Functionality: 1. Include interactive elements to engage visitors. 2. Implement secure user registration and login features.
4	SEO Optimization: 1. Ensure the website is optimized for search engines (SEO). 2. Implement best practices for improved online visibility.
5	Mobile Responsiveness: 1. Develop a mobile-responsive design for optimal viewing across devices with varying resolution and different platforms.
6	Security Measures: 1. Implement robust security measures to protect against potential threats, ensuring the confidentiality and integrity of user data.

2. The development of the web site broadly includes the completion of the below four applications.

I.	Website Pages & Sections for Navigation.
II.	Admission Portal for Applicants.
III.	Administration Portal for METI staff.

IV.	Portal for Students.
V.	Payment Gateway.

I. Website Pages & Sections for Navigation.

- a) The Service Provider shall design and develop the below pages for the website. The updation to these pages shall be done using the content management using different user logins created from the admin panel with permissions. The users shall also be able to create new pages as required and positioned in the navigation menus as per the requirement through the admin panel.

c) The detailed requirement against each page is as below:

Sl No.	Details
1	HOME PAGE
	The Home Page serves as the welcoming gateway to our website, designed to provide an engaging and user-friendly experience. It features a prominent logo, an intuitive navigation menu, a captivating banner, concise content in the central section, and an informative footer. The layout is structured to ensure easy access to key information and seamless navigation throughout the site.
	1.1 Logo: - The logo is positioned at the top left corner of the Home Page, ensuring immediate brand recognition. It features the Cochin Shipyard Limited (CSL) distinctive logo image alongside the company name text to the right. Clicking on either the logo or the company name will redirect users to the CSL official website. The logo should maintain a standard size for clarity and visibility, with appropriate spacing around it to avoid clutter. The styling should be consistent with the overall design aesthetic of the website, ensuring a seamless visual integration.
	1.2 Navigation bar:- The navigation bar is strategically positioned at the top of the Home Page and can be either adjacent to or below the logo. It provides easy access to the website's primary sections, including About Us, Course and Admission, Placement and Career, Alumni, Blog, Gallery, and Sign In/Login. Each link is clearly labelled, allowing users to seamlessly navigate to specific pages. The navigation bar should be responsive, ensuring usability across various devices, and maintain a consistent style that complements the overall website design.
	1.3 Banner:- The banner on the Home Page features a slideshow, showcasing a series of high-quality images. Users have control options to pause, start, and navigate through the images, with buttons to move to the previous or next image. Each image is displayed for a duration of 5 seconds before transitioning to the next. This interactive slideshow is designed to capture user attention and provide an engaging visual experience, enhancing the overall appeal of the website. The banner should be fully responsive, ensuring smooth functionality and appearance across all devices.
	1.4 Testimonials:- The testimonial section on homepage should feature concise endorsements from satisfied clients, including their name, occupation, and a brief endorsement of METI. We aim to display a diverse range of testimonials to showcase the broad appeal and

	effectiveness of our offerings, instilling trust and credibility in potential customers.
	1.5 Ask Us:- The "Ask Us" section on our homepage will feature a user-friendly form where visitors can submit inquiries via email. This form will include fields for their name, email address, subject, and message. The design will prioritize simplicity and ease of use, ensuring that users can quickly and efficiently communicate their questions or requests. Upon submission, inquiries will be directed to admin panel and our designated email address for prompt response and follow-up.
	1.6 Location Map:- The Location Map section on our homepage will provide visitors with an interactive map displaying our physical location(s) or service area. This map will be integrated seamlessly into the design, allowing users to easily visualize our proximity and navigate to our establishment. Additionally, it will feature functionalities such as zooming, panning, and directions to enhance user experience. Clear markers or pins will indicate our precise location(s), ensuring that visitors can find us effortlessly.
	1.7 Footer:- The footer section will provide essential navigation and contact information, ensuring easy access to key resources and enhancing user experience. It will feature quick links, FAQs, contact addresses, administrative office details, and social media links. • Quick Links: Direct access to important pages, allowing users to navigate efficiently to relevant sections of our website. • FAQs: A concise compilation of frequently asked questions and their answers, addressing common queries and providing clarity to visitors. • Administrative Office Address: Details of METI's administrative office location, facilitating communication and correspondence for administrative purposes. • Social Media Links: Links to our social media profiles of Facebook and X (Twitter) providing additional avenues for users to connect with us and stay updated on our latest news and offerings.
2	ABOUT US
	About Us section provides insight into who we are as an institution, our values, and our mission.

	2.1 Introduction: - An overview of METI, highlighting our history, mission, and values.
	2.2 Why Us: - The "Why Us" section will highlight the key reasons to choose METI, featuring a blend of images and text information to create an engaging and informative experience for visitors. Each subsection will include visually appealing images alongside concise, impactful text that showcases our strengths. • Achievements: This subsection will showcase our notable accomplishments and milestones with a mix of compelling images and text. Each achievement will be paired with a relevant image and a brief description to highlight our progress and success. The layout will be visually appealing, with a clear, easy-to-read format. • Awards & Certifications: Highlight the recognition and certifications we have earned through high-quality images of awards and certificates, accompanied by text descriptions. Each award or certification will be displayed with its corresponding image and a short description, emphasizing our commitment to excellence and industry standards. • Placements: Display our successful track record in student placements with images company logos, and testimonials from placed students. This subsection will include statistics and success stories, presented in a visually engaging manner to showcase our effectiveness in helping students launch their careers.
	2.3 Staff & Faculty: - The "Staff & Faculty" section will provide detailed information about our team, featuring a combination of images and text to highlight our qualified and experienced faculty members. Each subsection will include professional photos alongside essential details, ensuring a comprehensive and engaging presentation. • Department: This subsection will categorize staff and faculty members based on their respective departments. Each department will have a representative image and a brief overview, giving visitors insight into the specific areas of expertise and focus within our institution. • Photo, Name, Designation: Present staff and faculty profiles with professional photographs, names, and designations. Each profile will feature a high-quality image of the faculty member, along with their name, designation, and a concise description of their role and qualifications. This layout will provide a personal touch, allowing visitors to familiarize themselves with our dedicated team.

	2.4 Facilities: - The "Facilities" section will feature a blend of images and text to showcase the amenities at METI. Each subsection will include high-quality images alongside brief descriptions. • Campus and Infrastructure: Provide images of the campus buildings and key infrastructure, with concise text descriptions. • Class Rooms and Practical's: Include images of classrooms and practical labs, with short text highlighting their features. • Workshops: Feature images of workshop facilities with brief descriptions of the available tools and equipment. • Hostel: Provide images of hostel accommodations, including living spaces and common areas, with concise text descriptions. • Mess: Include images of the dining facilities and meal options, with brief text about the services provided. • Library: Feature images of the library, including reading areas and resources, with concise text descriptions.
3	COURSE AND ADMISSION
	The "Course & Admission" section will provide comprehensive information about our courses and the admission process. This section will be organized to ensure that prospective students can easily find and understand the necessary details. It will provide detailed information about the courses offered, the application process, fee payment options, and comprehensive admission details.

	3.1 Course: - In this sub-section, courses are categorized into Pre-Sea and Post-Sea, providing detailed lists under each category. Selecting a category reveals the specific courses available: A). Pre-Sea Courses - • GME • Basic Training in Oil & Chemical Tanker Cargo Operations • Basic Training for Liquefied Gas Tanker Cargo Operations • Basic Safety Training (BST) B). Post-Sea Courses - • Advanced Fire Fighting (AFF) • Medical First Aid (MFA) By clicking the course from the list will show all details about the course. Highlighted courses within each category feature photos and clickable links that lead to detailed course information or an Apply Now page, enhancing user engagement and facilitating easy navigation. Note: The main Course & Admission page comprises four sub-sections: Course, Apply Now, Fee Payment, your application and Admission Info. These sub-sections display highlighted courses with clickable links such as Apply Now and Fee Payment. These links will direct users to the admission interface, where registration is required for new users and login is required for registered users. 3.2 Admission Portal: - Please refer the section II. Admission Portal for Applicants
4	PLACEMENT & CAREER
	The "Placement & Career" section will feature comprehensive information about METI's placement success and current opportunities, using a combination of images and text to provide a clear and engaging overview.
	4.1 Placement Details of Different Batches:- This subsection will present placement statistics in a structured or tabular format. Each academic session, such as "Academic Session 2023-24," will be a clickable link. When clicked, users will see detailed placement statistics for that session, including placement rates, companies, and positions secured by graduates. Additionally, milestone achievements in placements will be highlighted with corresponding images, such as graduation photos or company logos.

	4.2 Opportunities / Vacancies:- Feature images and text about current job opportunities and vacancies available to students and alumni. This subsection will include logos or images of hiring companies and concise descriptions of the roles, application processes, and deadlines.
5	ALUMNI
	The "Alumni" section will provide detailed information about our alumni network, featuring a combination of images and text to engage and inform visitors.
	5.1 About Alumni:- This subsection will introduce METI's alumni network, highlighting its purpose and benefits. It will feature a blend of images and text to create an engaging overview. This section will include images of alumni gatherings or notable alumni achievements, News and Updates, gallery, accompanied by brief descriptions, Signin/signup option. The text will emphasize the importance of staying connected, the opportunities for networking, and the support available through the alumni community. The layout will ensure that visitors understand the value of the alumni network and feel encouraged to engage with it.
	5.2 Registration:- The "Registration" subsection will allow alumni to register and log in on the same page. The process will include the following steps and features: Registration Process:- A) Initial Verification: • The form will start with an email or mobile number field. • Verification via OTP (One-Time Password) will be required for either option. B) Detailed Registration Form: • After verification, users will fill out the following fields: • First Name • Last Name • Email Address • Affiliation (dropdown options: Alumni, Faculty, Staff, Other, Student) • Based on the affiliation selection, the next fields will be: • Mobile Number • City • Year of Entry • Year of Graduation • Course • Registration Number/Enrolment Number

	C) Automatic Data Retrieval: After entering the course and enrolment number, user details can be automatically retrieved to simplify the registration process. Login Process: Registered alumni will log in by verifying an OTP sent to their registered mobile number. Post-Login Features: • After logging in, the alumni section will display additional details and features not accessible to non-registered users. • Registered users can: • Update their profile details. • View details of other alumni from the same batch. • Access event information specific to their alumni batch. • Add personal accomplishments. This streamlined process ensures that alumni can easily register, log in, and access exclusive features within the alumni network.
	5.3 Activities:- Showcase alumni activities and events with images and brief descriptions. Highlight key events such as reunions, workshops, and networking opportunities, using images to illustrate each activity.
	5.4 Photos:- Create a gallery of alumni photos, featuring images from various events and gatherings. Users should be able to click on thumbnails to view larger versions of the photos, with brief captions describing each event or occasion.
6	BLOG
	This section will be a dedicated space for users to read and engage with content about METI events, activities, and photo galleries. This section will be well-organized and visually appealing, featuring a combination of images, text, and interactive elements to enhance the user experience.
	6.1 Event:- This subsection will feature blog posts about various events hosted by our institution. Each post will include: • A headline and event date. • High-quality images from the event. • A detailed description of the event, including key highlights and outcomes. • Tags and categories for easy navigation and searchability.

	6.2 Activities:- This subsection will cover a range of activities, including workshops, seminars, and community service projects. Each post will include: • A descriptive title and date. • Engaging images related to the activity. • A summary of the activity, objectives, and participants' experiences. • Tags and categories for easy navigation and searchability.
	6.3 Photos:- This subsection will serve as a photo gallery, showcasing images from various events and activities. Features will include: • Thumbnail images that users can click to view larger versions. • Captions and descriptions for each photo. • Organized albums or collections for different events or themes. • Social sharing options to increase engagement.
	Standard Blog Page Features:- • Search Bar: Allow users to search for specific posts or topics. • Categories and Tags: Enable users to filter and navigate blog content easily. • Comments Section: Encourage interaction and discussion by allowing users to leave comments on blog posts. • Social Sharing Buttons: Provide options for users to share blog posts on social media platforms. • Related Posts: Display links to related blog posts at the end of each article to keep users engaged. • Subscription Option: Offer a way for users to subscribe to the blog and receive updates via email.
7	CONTACT US
	The "Contact Us" section will provide all the necessary information for visitors to reach out to us, ensuring clarity and ease of access. This section will include the following standard elements:
	7.1 Address:- • Display the complete physical address of the institution. • Include an image or icon representing the location for visual appeal. • Ensure the address is easily readable and accessible. • Provide information about working hours to let users know the best times to contact or visit.
	7.2 Mail Id:- • Provide the official email address for inquiries.

	• Use a mailto link to allow users to click and directly open their email client with the address pre-filled. • Include an icon to visually represent email communication.
	7.3 Phone Number:- • List the primary phone number for contact. • Use a clickable link for mobile users to dial the number directly. • Include an icon to visually represent phone communication.
	7.4 Map:- It should be same as point 1.6 and necessarily have – • Embed an interactive map showing the exact location of the institution. • Ensure the map allows for zooming, panning, and getting directions. • Include a marker indicating the institution's location clearly.
	7.5 Ask Us Form Link:- • Include a link to the "Ask Us" form (point 1.5) with a query image and a button labeled "Ask Us." • Ensure the button loads the "Ask Us" form for users to submit their inquiries. • Use an engaging image to visually represent the query option.
	7.6 Social Media Links:- • Just before the footer, display recent social media posts with links to the full posts. • Include thumbnails or previews of recent posts from platforms like Facebook, Twitter, LinkedIn. • Ensure each post links to the original content on the respective social media platform. • Use recognizable icons for each social media platform for easy identification.
8	GALLERY
	The "Gallery" section will provide a visually rich experience, showcasing photos, videos, and magazines related to our institution. This section will be organized into three subsections, each featuring high-quality media content.
	8.1 Photos:- • This subsection will feature a photo gallery with high-quality images from various events, activities, classroom, campus, infrastructure and everyday campus life.

	• Include organized albums or collections for different events or themes. • Provide thumbnail images that users can click to view larger versions. • Add brief captions and descriptions for each photo to give context. • Implement a user-friendly navigation system to browse through different photo albums easily.
	8.2 Videos: • This subsection will showcase videos, including event recordings, promotional videos, and student projects. • Embed video players for easy viewing directly on the page. • Organize videos into categories or playlists for easy navigation. • Include brief descriptions or titles for each video to provide context. • Ensure videos are optimized for fast loading and high-quality playback.
	8.3 Magazines: • This subsection will feature digital versions of our institution's magazines and newsletters. • Provide downloadable PDF versions of each magazine issue. • Include thumbnails or cover images for each magazine with a brief description. • Implement a viewer for browsing through magazine pages directly on the site. • Organize magazines by issue date for easy access to past editions.
9	SIGN IN/LOGIN
	The "Sign In / Login" section provides secure access to the platform for both administrators and students. This section ensures that only authorized users can access the relevant parts of the system, maintaining data security and user privacy. It includes separate login portals for administrators and students, each tailored to their specific needs and permissions. Admin Login: - The Admin login portal allows administrators to manage courses, student applications, fee settings, and other administrative functions. This section will provide a secure login interface where admins can enter their credentials to access the administrative dashboard. Student Login: - The Student login portal enables students to access their application forms, view application statuses, make fee payments, and manage their personal information. This section will provide a secure login interface where students can enter their credentials to access their personalized student dashboard.

II. Admission Portal for Applicants

Sl No.	Details
1	Admission Portal For better continuity, please refer Para 3.1 – Course and Admission under Section I to know about functional requirements for listing courses in the site. The Admission Portal presents applicants with the option to either register as a new user or log in if they are already registered. Registration:- If the applicant opts to register, they are required to fill out a form with the following fields: • Full Name • Qualification (dropdown menu) • Mobile Number • Email Address After submitting the form, an OTP is sent to the provided mobile number for verification. Once verified, The applicant can proceed to the next step. Post-Registration Interface:- Upon successful registration or login, the applicant is directed to a page displaying all current course openings. This page includes: • List of Courses with start and end dates for registration • Details PDF link for each course • Apply Now button for each course This interface provides easy navigation with options like Current Openings, Apply now, Fee Payment, Your Application, Application Info and Logout either as a navigation bar or as buttons for user convenience.
	A). Apply Now:- When an applicant clicks on the "Apply Now" button corresponding to a particular course, such as the GME course, the application form specific to that course will be dynamically loaded. This application form can be customized and designed from the admin panel to cater to the requirements of the particular course. By loading the specific form for the selected course, applicants can seamlessly initiate their application process, providing relevant information and details required for enrolment. Once applicant started filling application form a unique application ID shall be generated in a predefined format like CSL/METI/001/year. • Upon clicking the "Apply Now" button, applicants are directed to a comprehensive application form tailored for the selected course. This form may include sections for gathering basic details, educational information, uploading photographs and signatures, submitting

	necessary documents, and a final submission option depends upon the selected course. • Upon completion of the application form, applicants proceed to the final step where they can either submit their application or proceed to payment. If payment is required, the applicant is seamlessly directed to the payment gateway specific to the course they are applying for. The application fee for each course is predetermined and set from the admin panel. • It's important to note that the application fee may vary based on factors such as applicant reservation eligibility, gender, or other criteria. For instance, SC/ST applicants may have their fees waived off or may not be required to pay any amount. In such cases, the application is directly submitted without displaying the payment gateway page, ensuring a smooth and hassle-free process for all applicants. For e.g. If an applicant clicks upon apply now in front of GME Course than application form will open which can have fields – Basic Info - • Full Name (can be have fields first name, middle name, last name) • Nationality • Address (Permanent and Communication Address with multiple fields building no./name, street1, street2, street3, street4, district, state and pin) • Email Address • Date of Birth • Aadhaar number • Gender • Caste – SC/ST/OBC/GENERAL • Height, weight and Blood group • Chicken pox • Passport Details – passport no. , validity and issue date • Sponsorship Details (if applicable) – Company name and address • Family Details father/mother/spouse's name, relationship, address, mobile, email Educational Info- • 10th Level – • Name of school • Year of passing • Percentage of marks in English • 12th Level – • Name of school • Year of passing • Percentage of marks in English • Diploma (optional) – • Name of Institute • Year of passing • Percentage of marks in English • Degree Level – • Name of Degree
--	---

	• Branch - Mechanical Engineering, Mechanical & Automation, Mechanical & Electronics, Mechanical & Automobile, Naval Architecture, Naval Architecture & Ocean Engineering, Naval Architecture and ship building, Marine Engineering (Non DGS Approved) • Year of Passing • Name of College • College Address • Name of University • University Address • Total percentage of marks obtained • AICTE/UGC Approval of college no. and date (if possessed) • Photo & Sign- (upload photo and sign, Verify and submit) • Photograph should be in jpg format • Photograph image dimension should be 150*200 px (Width*Height) • Sign should be same as passport and with black ink • Sign image dimension should be 250*100 px (Width*Height) Document upload – • Passport • Degree/Provisional Degree Certificate • AICTE Approval letter from college/ UGC Approval letter from university - with Approval no. & Date • Consolidated Mark list or marks sheets of all semesters • 10th Certificate • 12th Certificate • Medical Certificate Original (From DG approved doctor, validity, for 24 months from starting of the course with photo) • Caste Certificate for reserved categories (if age relaxation is availed) • Sponsorship Letter • Police Certification Certificate Each document should have a "Browse" option to select the file, followed by "Verify" and "Upload" options. Below these, there should be a "Save and Process" button. After completing the application form, the next page dynamically displays the notification number for the selected course. It also provides a field for entering the DG Shipping reference number and includes a question about reservation eligibility, with radio buttons for "Yes" and "No." Below these fields, there is an "Apply Now/Pay Now" button. When the applicant clicks this button, the system processes the information to determine the payable amount based on factors such as reservation status, category, or gender. If payment is required, the applicant is directed to the payment gateway page to complete the transaction. Once the payment is successfully processed, the application is submitted to the admin panel for review. If no payment is necessary (e.g., for reserved categories with fee waivers), the application is directly submitted without loading the payment gateway page, ensuring a seamless and efficient process for all applicants.
--	---

	Throughout the application process, each page should include a save button, allowing applicants to save their progress and log in later to resume from where they last left off. (Note: The fields required during the application process may vary depending on the specific course the user has selected. The GME course is used here as a reference; other courses may require more or fewer fields. All fields for each course, along with associated fees and any fee restrictions or waivers, should be configurable by the admin in the admin panel when adding a new course.)
	B). Your Application: - In this section, applicants can view the status of their applications in a tabular format. The table includes the following columns: • Notification Number • Description (Course Name) • Application Number (Generated when the user starts applying for the specific course) • Status (with necessary clickable text links for actions) The Status column provides actionable text based on the current stage of the application: • Saved: Allows the applicant to continue filling out the form from where they left off by clicking on "Continue Application." • Payment Pending: Directs the applicant to the payment gateway to complete the payment and submit the form by clicking on "Make Payment." • Submitted: Indicates that the form has been submitted and is under review by the admin. • Accepted: If the application is accepted, the applicant is prompted to make the admission fee payment by clicking on "Pay Admission Fee." • Rejected: Displays the rejection reason provided by the admin, both on this page and sent to the registered email, with a link to view "Rejection Reason." • Withheld: Shows the reason for withholding the application. Applicants can make necessary changes and resubmit the application without paying the application fee again by clicking on "Resubmit Application." The resubmitted application will be reviewed by the admin, and the status will update to "Resubmitted." This section ensures that applicants can easily track and manage their applications, providing clear instructions and actions based on the application's current status.
	C). Fee Payment: - In this section, applicants can view and pay any required fees before enrolment in a tabular format. The table includes the following columns: • Notification Number • Description (Course Name)

	• Application Number (Generated when the user starts applying for the specific course) • Fee Type • Amount • Starts From • Ends On • Status This section displays the details of each course for which the applicant has submitted the application form, been accepted, and paid the application fee. It allows users to pay the admission fee and any other required fees before enrolment directly from this page. The fees displayed are set by the admin panel for each particular course. Key features include: Dynamic Fee Calculation: The admission fee and other required fees are dynamically calculated based on the applicant's submitted information. For example, Lakshadweep students may have their admission fee waived off. For instance, if the admission fee is ₹10,000, Lakshadweep students will not be required to pay it, and this fee will not be visible to them on this page. Additionally, female students might have a reduced admission fee. Configurable Fee Waivers: These fee calculations and waivers are managed by the admin. The system allows the admin to set common fee waivers and discounts for each course based on predefined conditions provided by METI for each course. Conditional Visibility: Fees that are waived for specific applicants (e.g., Lakshadweep students) will not be displayed to those users on this page. Certain fees may be hidden for specific applicants based on submitted details (e.g., state). In such cases, applicants must upload relevant documents, which the admin will review. If approved, the fee is waived; otherwise, the user will be prompted to pay later. Direct Payment: Applicants can directly pay the required amount by clicking on the payment link. The amount to be paid will be dynamically adjusted before processing to the payment gateway, taking into account any applicable discounts or waivers.
	D). Application Info:- The application information section will be presented in a user-friendly tabular format, providing applicants with a clear overview of available programs. • Notification Number: A unique identifier for each admission notification. • Description - Course Name: Clearly identifies the specific course or program being offered. • Start Date & End Date: Displays the application window for the program. • Detailed Instructions: This column will house downloadable instructions for each course. Downloadable Instructions:

	• Users will be able to download comprehensive instructions related to the admission process for each specific course by clicking a "Download" button within the "Detailed Instructions" column. • These downloadable instructions should be provided in a commonly used format, such as PDF or Word document. • The instructions should detail the entire admission process, including eligibility requirements, application materials needed, submission procedures, selection criteria, and timelines.
--	---

III. Administration Portal for METI staff

- a) The Service Provider should design and develop the below pages for the website. The updation to these pages shall be done using the content management using different user logins created from the admin panel with permissions. The users shall also be able to create new pages as required and positioned in the navigation menus as per the requirement in the admin panel.

Sl No.	Details
	ADMIN PANEL
	The Admin Panel allows administrators to efficiently manage various aspects of the system. Below are the pages and sections available for navigation within the Admin Panel:
	LOGIN
	The Login page serves as the entry point for administrators to access the admin panel. It includes the following fields and functionalities: • User Name: Admins enter their designated username in this field. • Password: Admins enter their secure password in this field. • Login Button: By clicking this button, the system verifies the entered credentials and grants access to the admin panel if the credentials are correct. • Forgot Password: This option allows admins to reset their password if they have forgotten it. Login Process: • Username and Password Entry: The admin enters their username and password. • Credential Verification: The system verifies the credentials. If correct, the admin gains access to the admin panel. If incorrect, an error message is displayed. Forgot Password Process: • Username Entry: The admin clicks on the "Forgot Password" link and is prompted to enter their username. • OTP Verification: The system sends an OTP (One-Time Password) to the registered mobile number associated with the username. • OTP Entry: The admin enters the OTP received on their mobile. • New Password Entry: Upon successful OTP verification, the admin is prompted to enter a new password in two fields: • Enter New Password: The admin enters the new password, which must meet the following criteria: • Minimum 8 characters • At least one numeric character • At least one uppercase letter • Re-enter New Password: The admin re-enters the new password for confirmation. • Password Validation: The system checks if the new password meets the necessary criteria. If not, an error message is displayed indicating the specific requirement that was not met. • Password Match Check: The system ensures both password fields match. If they do not match, an error message is displayed.

	• Password Reset Confirmation: If all conditions are met, the new password is set, and the admin receives a success message with a link to return to the login page. This process ensures a secure and user-friendly method for admins to access and manage their accounts, maintaining the integrity and security of the admin panel.
	MANAGE PAGE
	The Manage Page section allows administrators to edit and update the content for various pages on the website. This section provides full control to the admin for managing text, images, and other content elements, ensuring that the website remains up-to-date and relevant.
	Functionality: - • Content Editing: Admins can edit text, images, and other content for each page. This includes updating information, adding new content, and removing outdated content. • Add New Content: Admins can add new text, images, and multimedia elements to each page. This includes uploading images, embedding videos, and formatting text to ensure a professional and engaging presentation. • Modify Existing Content: Admins can update existing content to reflect the latest information and organizational updates. This includes editing text for clarity, replacing images, and ensuring that all content is accurate and up-to-date. • Full Control: Admins have full control over the content of these pages, allowing for comprehensive management of the website's information. This ensures that the website remains a valuable resource for students, staff, and visitors. The following pages can be managed:
	Home:- Logo:- Functionality: The admin can upload a new logo image and update the company name if needed. Editing Capabilities: Admin can replace the existing logo image with a new one and update the text of the company name that appears adjacent to the logo. Navigation Bar:- Functionality: Refer to point 1.2 for detailed functionality. Editing Capabilities: Admin can add new navigation options, define new page links, and change the sequence of navigation options. This allows the admin to customize the website's menu to reflect new pages or priorities.

	Banner:- Functionality: Refer to point 1.3 for detailed functionality. Editing Capabilities: Admin can change the images displayed in the banner slideshow. Admin can also add new images to the banner and remove existing ones as needed. Testimonials:- Functionality: Refer to point 1.4 for detailed functionality. Editing Capabilities: Admin can edit the comments, names, and occupations of individuals in the testimonials section. Admin can also add new testimonials and remove outdated ones, ensuring the testimonials remain current and relevant. Ask Us:- Functionality: Refer to point 1.5 for detailed functionality. Editing Capabilities: Admin can change the email address where queries are sent upon submission from the website. Admin can also add more text fields to the form and edit existing text and image content. Footer:- Functionality: Refer to point 1.7 for detailed functionality. Editing Capabilities: Admin can edit quick links, FAQs, contact addresses, administrative office details, and social media links. Admin can add new quick links, FAQs, and contact addresses, and can change the URLs of social media links to ensure they remain accurate and functional. Admin can create, update sort and delete the FAQs.
	About Us:- Functionality: Refer to point 2 and sub points (2.1, 2.2, 2.3, 2.4) for detailed functionality. Editing Capabilities: The admin can update the text and images for the entire section. This includes: Why Us:- • Achievements • Awards & Certifications • Placements Staff & Faculty: • Department • Photo, Name, Designation Facilities: • Campus and Infrastructure • Class Rooms and Practical Sessions • Workshops • Hostel • Mess • Library

	Course and Admission:- Functionality: Refer to point 3 and sub points (3.1, 3.2 for detailed functionality). Editing Capabilities: The admin has full control over adding, updating, and managing courses and admission forms. This includes: Course Management- Pre-Sea Courses: Admin can add a list of Pre-Sea courses with details, related notifications, and PDFs. Post-Sea Courses: Admin can add a list of Post-Sea courses with details, related notifications, and PDFs. Admission Interface - • Current Openings: Admin can add courses with an "Apply Now" form. While adding courses, the admin can: • Set course details, including start date, end date, course description, notification number, application form and notification document. • Configure application fees and specify any fee waivers or reductions based on criteria such as reservation status or gender. For example: • Fee Waiver for Reserved Categories: Specify if a fee waiver is required for reserved categories and to what extent. • Gender-Based Waivers: Define if a fee waiver is required for female applicants. • Manage form fields: (refer point 3.2 A for application form reference) Admin can create, edit, or remove form fields for different courses. This includes: • Text Fields: Add new text fields with specific names. • Dropdown Menus: Add or change options in dropdown menus. • Document Uploads: Choose which documents need to be uploaded by the applicants.
	Applicants and Applications Management: Applicants:- • Functionality: This section displays the list of all users who have applied for various courses. The admin can: • Course Sorting: Select a specific course to filter and view applicants for that course. • Applicant Details: View a list of applicants with the following details: • Name • Mobile Number • Email Address • Application Number • Notification Number • Course Name • Status of their application • Search Facility: Search for applicants using various criteria. Applications: - Functionality: This section allows the admin to review and manage submitted applications. The admin can: View a list of all applications with

	similar details to the Applicants section but having application view and review option. • Application Review: Open and review the submitted application forms, where the admin can: • Accept Application: Approve the application, changing its status to "Accepted." • Reject Application: Deny the application, providing a reason for rejection. This reason will be visible to the applicant in the "Your Application" section. • Withhold Application: Temporarily withhold the application, providing a reason. The applicant can then make necessary changes and resubmit without paying the application fee again. This updated status and remarks will be visible to the applicant in the "Your Application" section (point 3.2 B). Process: - • Course Sorting: Admin selects a course to view applicants. • Applicant List: Admin views the list of applicants for the selected course. • Search Facility: Admin can search for specific applicants. Application Review: - • Admin opens a specific application to review the details. • Based on the review, the admin can accept, reject, or withhold the application. • Admin provides remarks for rejected or withheld applications. • Status and remarks are updated in the "Your Application" section for the applicant. Admission Info: Functionality: refer the point 3.2 D for full functionality. This section allows the admin to manage the detailed instruction of all courses offered. Admin can: • Course List: Add courses manually or import them from the current openings. • Course Details: Provide comprehensive details for each course, including descriptions and other relevant information. • Instruction PDF: Upload detailed instruction PDFs for each course. • Content Editing: Edit all text on this page to ensure up-to-date and accurate information.
	Placement & Career: Functionality: Refer to point 4 and sub points (4.1, 4.2 for detailed functionality). Placement Details of Different Batches: Admin can update placement statistics for each academic session, including placement rates, companies, and positions secured by graduates. Admin can also add images, such as graduation photos or company logos, to highlight milestone achievements.

	Opportunities / Vacancies: Admin can feature current job opportunities and vacancies available to students and alumni by adding logos or images of hiring companies, along with concise descriptions of the roles, application processes, and deadlines.
	Alumni: Functionality: Refer to point 5 and sub points (5.1, 5.2, 5.3, 5.4 for detailed functionality). Admin can: About Alumni: Admin can update and manage the content, images, and descriptions related to the alumni network, including alumni gatherings, notable achievements, news, updates, and the gallery. Registration: Admin can oversee the registration process, including initial verification via OTP, and manage the detailed registration forms. Admin can configure automatic data retrieval based on course and enrolment numbers, ensuring a streamlined registration process. Admin can view all registered alumni with their details and can able to search and sort based upon passing out year. Admin can also manage the login process and post-login features, allowing alumni to update profiles, view batch details, access event information, and add personal accomplishments. Activities: Admin can add, update, and remove information and images related to alumni activities and events. This includes highlighting key events such as reunions, workshops, and networking opportunities, with accompanying descriptions and images. Photos: Admin can manage the alumni photo gallery, including uploading images from various events and gatherings. Admin can also add captions and enable users to click on thumbnails to view larger versions of the photos.
	Blog: Functionality: Refer to point 6 and sub points (6.1, 6.2, 6.3 for detailed functionality). Admin can: Event: Admin can create, update, and delete blog posts about various events. This includes adding headlines, event dates, high-quality images, detailed descriptions, and organizing posts with tags and categories for easy navigation and searchability. Activities: Admin can manage blog posts covering workshops, seminars, and community service projects. They can add descriptive titles, dates, engaging images, summaries of activities, and use tags and categories to improve navigation and search functionality. Photos: Admin can upload and manage photo galleries. This includes adding thumbnail images, captions, descriptions, and organizing photos into

	albums or collections. Admin can also enable social sharing options for increased engagement.
	Contact Us: Functionality: Refer to point 7 and sub points (7.1 to 7.6 for detailed functionality). Admin can: Address: Admin can update the complete physical address, add or change the image/icon representing the location, and modify the working hour information. Mail Id: Admin can change the official email address for inquiries and update the associated mailto link and icon. Phone Number: Admin can edit the primary phone number, update the clickable link for mobile users, and change the icon representing phone communication. Map: Admin can embed and update the interactive map, including the institution's location marker and map functionality (zooming, panning, and directions). Social Media Links: Admin can display and update recent social media posts, manage the links to full posts, and change the thumbnails/previews and icons for each social media platform.
	Gallery: Functionality: Refer to point 8 and sub points (8.1, 8.2, and 8.3 for detailed functionality). Admin can: Photos: Admin can upload and organize high-quality images into albums or collections, add captions and descriptions, and manage the user-friendly navigation system for browsing through different photo albums. Videos: Admin can upload and categorize videos, embed video players for easy viewing, add descriptions or titles, and ensure videos are optimized for fast loading and playback. Magazines: Admin can upload digital versions of magazines and newsletters, provide downloadable PDF versions, add thumbnails or cover images with descriptions, implement a viewer for browsing magazine pages, and organize magazines by issue date.
	MANAGE ADMIN USER
	Functionality: This section allows the admin to manage other administrative users, including Heads of Departments (HOD), Instructors, and Faculties.

	Admin can: Create: Admin can create new user accounts for HODs, Instructors, and Faculties, assigning appropriate roles and permissions. Edit: Admin can edit the details of existing users, updating information such as name, email, and assigned roles. View: Admin can view the list of all administrative users, along with their details and current permissions. Grant Permission: Admin can assign or modify the permissions of users, specifying what actions they are allowed to perform within the system. Delete: Admin can delete user accounts if they are no longer needed or if the user is no longer part of the institution.
	MANAGE STUDENT USER
	Functionality: This section enables administrators to manage student accounts within the system. Create: Admins can create new student user accounts by using INDoS No. /Student id, which will be generated only after a student's application is accepted and the admission fee is paid. Student details can be fetched from the application form using the application number, and roles and permissions can be assigned as needed. Edit: Existing student accounts can be edited by admins, allowing updates to personal information or assigned roles. View: Admins have access to view all student accounts, along with their details and current permissions. Grant Permission: Admins can grant or modify permissions for student users, specifying the actions they are allowed to perform within the system. Delete: Admins can delete student accounts if necessary, removing them from the system.
	ASK US ENQUIRY REPLY
	In the "Ask Us" Enquiry Reply section, administrators can view the inquiries submitted through the Ask Us form on the website. From this interface, admins can read the messages and draft replies to address the inquiries. Once a reply is composed, it can be sent directly to the email address associated with the user who submitted the inquiry. This streamlined process ensures efficient communication between administrators and users.
	ONLINE INTERVIEW
	Administrators can conveniently schedule online interviews if required for various purposes such as career opportunities, admission processes, or

	student assessments. Using an API from a preferred interview platform like Microsoft Teams, admins can schedule interviews, set topics, specify dates and times, and designate recipients who will receive the interview link via email. Upon scheduling, a confirmation email is automatically sent to the designated recipients. Once confirmed by the users, they can access the interview link directly, streamlining the interview process for both administrators and interviewees.
	ADMISSION LETTER
	Upon acceptance of an applicant's application and payment of the admission fee for the respective course, administrators can send out admission letters directly from the applications section. Once the status of the application changes to "admission fee paid," administrators can initiate the process by clicking on the "send admission letter" option. The admission letter, formatted as a PDF, will include details extracted from the applicant's form, ensuring accuracy and completeness. The admission letter is then dispatched to the applicant's provided email address, facilitating seamless communication and formal acceptance into the program.
	FEE MANAGEMENT
	In this section, admin have the authority to manage course fees effectively. They can perform tasks such as creating, updating, and deleting course fees, ensuring accurate and up-to-date information for students and applicants. Upon accessing the Fee Management section, administrators can view a list of courses available on the website. For each course, they have the option to edit or add fee types and their respective amounts. These fees include any additional charges beyond the application fee that applicants are required to pay before enrolment or INDoS No. generation. Admins can: Create: Introduce new fee structures for courses, specifying the fee type and the corresponding amount. This allows for seamless integration of new fees into the system, ensuring they are visible to students and applicants, both in the fee payment section of the application process (as detailed in 3.2 C) and in the Student's Portal's fee payment option. Update: Modify existing fee details as necessary. Whether adjusting fee amounts or updating fee types, this capability enables administrators to keep fee information accurate and up-to-date, ensuring consistency across all platforms, including the Student's Portal. Delete: Remove outdated or erroneous fee entries. This ensures that only relevant and current fee information is accessible to students and applicants, maintaining clarity and transparency in the fee payment process across all interfaces. The Fee Management section acts as a central hub for administering all fees related to course enrolment, encompassing fees payable during the

	application process, fee payment statuses, and any additional fees required before enrolment or INDoS No. generation. Admins can effortlessly manage these financial aspects, ensuring a smooth and transparent fee payment process for students and applicants alike, accessible from both the application interface (3.2 C) and the Student's Portal's fee payment option. Additionally, administrators have the ability to define fee waiver terms within the Fee Management section. This includes specifying conditions under which certain groups, such as students from Lakshadweep or female students, may be exempt from paying specific fees, such as admission fees or caution fees. By configuring these waivers directly within the Fee Management section, admin can ensure that the fee payment process aligns with institutional policies and requirements, providing equitable access to education for all students. These fee waiver terms are reflected in the fee payment section of the application process (3.2 C). Furthermore, the Fee Management system accommodates special cases such as students paying their fees via bank loans. In such instances, admins can verify supporting documents and mark the student's payment mode as "via loan." If the loan covers only a portion of the total fee, the system allows the admin to track both the loan-paid amount and any remaining balance to be paid by the student. Additionally, for loans disbursed in instalments, the admin can manage and update the instalment-wise receipt and approval status, ensuring accurate tracking and coordination throughout the payment cycle.
	STUDENT SECTION
	Forms: Access and Management: Admins can upload and manage important forms that are available to students in the Student's Portal.
	Feedback/Compliance: Review Feedback: Admins can view and respond to feedback submitted by students. Compliance Management: Admins handle compliance issues raised by students, ensuring that concerns are addressed promptly.
	Basic Details Update Requests: Educational Details:- View Requests: Admins can view student requests to update their educational details. Approve/Deny Updates: Admins have the authority to approve or deny these requests, ensuring all updates are accurate and justified. Photo & Signature: Review Requests: Admins can view student requests to update their profile photo and signature.

	Verify and Update: Admins verify the provided images for authenticity and appropriateness before updating the student profiles.
	Academic Details Update Requests: Current Course, Exams & Result Orals:- Review Academic Records: Admins can access requests related to current courses, exam results, and oral assessments. Update Records: Admins approve and update academic records based on student requests and verification.
	Study Materials: Manage Materials: Admins can upload new study materials and review student requests for additional resources. Provide Access: Admins ensure that requested study materials are made available to the students as needed.
	Certificate Requests: View and Process Requests:- Access Requests: Admins can view student requests for new or updated certificates. Issue Certificates: Admins process these requests by verifying the information and issuing the certificates in PDF format. Notification: Once processed, admins ensure that the certificates are sent to the students' registered email addresses.
	WEBSITE SETTINGS
	Within the Website Settings section, administrators have the capability to fine-tune and manage several fundamental aspects of the institution's online platform, ensuring smooth operation and alignment with organizational objectives. This section encompasses a range of common settings that govern the overall functionality and appearance of the website. Some of these settings include: Site Title and Description: Admins can define the title and description of the website, conveying its essence and purpose to visitors. Typography and Fonts: This setting allows administrators to select and customize the typography and fonts utilized across the website, ensuring consistency and readability. Color Scheme: Admins can specify the color scheme of the website, including primary and accent colors, to maintain brand identity and enhance visual appeal.

	SEO Settings: Administrators can configure various search engine optimization (SEO) settings, such as meta tags and keywords, to improve the website's visibility and search engine ranking. User Permissions and Roles: Admins have the authority to establish user roles and permissions, dictating access levels to different sections of the website based on user roles like administrators, editors, and contributors.

7	Certificates		View & Request Course Certificate

c) The detailed requirement against each page is as below:

Sl No.	Details
	STUDENT'S PORTAL
	The Student's Portal provides students with a centralized platform to access and manage their academic information. Below are the pages and sections available for navigation within the Student's Portal:
	LOGIN
	The Login page serves as the gateway for students to access their accounts. It includes the following fields and functionalities: • User Name: Students enter their unique student ID or INDoS No. provided by METI. • Password: Students enter their password. Initially, a common password may be assigned, which students are prompted to change upon their first login. • Login Button: By clicking this button, students submit their credentials for verification and gain access to the Student's Portal.

	• Forgot Password: This option allows students to reset their password by verifying an OTP sent to their registered mobile number or email address.
	Login Process: • Username and Password Entry: Students enter their student ID or INDoS No. and password. • Credential Verification: The system verifies the entered credentials. If correct, students gain access to the Student's Portal. If incorrect, an error message is displayed.
	Forgot Password Process: • Username Entry: Students click on the "Forgot Password" link and enter their student ID or INDoS No. • OTP Verification: The system sends an OTP to the registered mobile number or email address associated with the student's account. • OTP Entry: Students enter the OTP received on their mobile or email. • New Password Entry: Upon successful OTP verification, students are prompted to enter a new password. • Password Validation: The system checks if the new password meets the required criteria, such as minimum length and inclusion of alphanumeric characters. • Password Match Check: Students confirm the new password by re-entering it. • Password Reset Confirmation: If all conditions are met, the new password is set, and students receive a success message with a link to return to the login page. This process ensures a secure and streamlined method for students to access their accounts and academic information within the Student's Portal.
	ACCOUNT/DASHBOARD
	The Account/Dashboard page serves as the central hub for students to manage their personal information and access essential resources. This section includes the following functionalities:
	Change Password: Students can update their password to ensure their account remains secure. The process involves entering the current password, followed by the new

	password, and confirming the new password. The new password must meet specified security criteria.
	Forms: This section provides access to important forms related to various student activities and administrative processes. Each form is available in PDF format with a clear description of its purpose and instructions for completion. Examples of forms available here might include: Admission forms, scholarship application forms, Examination request forms, Leave application forms etc.
	Feedback/Compliance: Students can provide feedback on their courses, instructors, and overall experience. This section also allows students to raise any compliance-related issues or concerns they might have. The feedback and compliance submissions are reviewed by the relevant administrative departments to ensure student needs and issues are addressed promptly.
	Logout: This functionality allows students to securely log out of the Student's Portal, ensuring their session is properly terminated and their account remains protected from unauthorized access.
	STUDENT DETAILS
	The Student Details page allows students to view and manage their personal and educational information. This section includes the following functionalities:
	Basic Details: View: Students can view their basic personal information such as name, date of birth, gender, contact details, and address. Update Request: If any of the basic details need to be updated, students can submit a request for changes. This request will be reviewed and approved by the administrative staff before the changes are reflected in the system.
	Educational Details: View: Students can view their educational history and current academic status, including information such as previous qualifications, grades, and the course they are currently enrolled in. Update Request: For any corrections or updates in their educational details, students can submit a request, which will be reviewed and approved by the administration.
	Photo & Signature:

	View: Students can view their currently uploaded photo and signature, which are used for identification purposes. Update Request: If students need to update their photo or signature, they can submit a request to upload new files. The administration will review and approve these updates.
	ACADEMIC DETAILS
	The Academic Details page provides students with comprehensive information about their current course, exam results, orals, and study materials. This section focuses on viewing functionality, ensuring that students have easy access to their academic information.
	Current Course: View: Students can view detailed information about the course they are currently enrolled in, including course name, duration, schedule, and syllabus.
	Exams & Results: View: Exams: Students can view a list of upcoming and past exams, including dates, times, and locations. Results: Students can view their exam results, including grades, marks obtained in each subject, and overall performance. Detailed breakdowns of each exam can also be accessed.
	Orals: View: Information regarding oral exams, including schedules, topics to be covered, and results, can be viewed here
	Study Materials: View: Students can access and download study materials provided by their instructors. This includes lecture notes, textbooks, reference materials, assignments, and additional resources. Materials are organized by course and module for easy navigation.
	Process for Viewing Academic Details: Navigating to Academic Details: • Students log in to their account and navigate to the Academic Details page. • They can access various subsections: Current Course, Exams & Results, Orals, and Study Materials. Viewing Information: Current Course:-

	- Students click on the Current Course section to view detailed course information. Exams & Results:- - Students click on the Exams section to view upcoming and past exam schedules. - Students click on the Results section to view their exam results and detailed performance reports. Orals:- - Students click on the Orals section to view schedules and results of oral exams. Study Materials: - Students click on the Study Materials section to access downloadable resources organized by their current course and modules.
	ATTENDANCE
	The Attendance section allows students to view their total attendance records and submit update requests if they notice any discrepancies. This section is designed to provide transparency and ensure accurate tracking of student attendance.
	FEES
	The Fees section allows students to manage and view their fee payments for the courses they are enrolled in. This section includes functionalities for paying course fees and viewing payment history, ensuring a transparent and efficient process for managing financial transactions related to their education.
	Pay Fee: Pay Course Fee: This subsection allows students to pay various fees associated with their courses. It includes: - List of Fee Types: A detailed list of all the fees that need to be paid, such as examination fees, tuition fees, and other miscellaneous fees. - Fee Amount: The exact amount that needs to be paid for each fee type. - Payment Gateway Integration: A secure payment gateway that offers multiple payment options, such as credit/debit cards, net banking, UPI, and other digital wallets. - Payment Instructions: Clear instructions on how to complete the payment process. - Receipt Generation: After successful payment, a digital receipt is generated and sent to the student's registered email address. The receipt can also be downloaded directly from the portal.
	Payment History: View Payment History: This subsection allows students to view their past fee payments, providing a comprehensive record of their financial transactions. It includes:

	• Payment Records: A chronological list of all payments made by the student, including details such as the date of payment, fee type, amount paid, and transaction ID. • Status of Payments: Information on the status of each payment, such as successful, pending, or failed transactions. • Download Receipts: Option to download or print receipts for past payments for personal records or future reference.
	CERTIFICATES
	The Certificates section provides students with access to their course certificates and the ability to request new ones if needed. This section ensures that students can easily manage their academic credentials and obtain the necessary documentation for their accomplishments
	View & Request Course Certificate: View Course Certificates: • Available Certificates: Students can view a list of all the certificates they have earned from their completed courses. • Certificate Details: Each certificate entry includes the course name, date of issuance, and other relevant details. • Download Option: Students can download their certificates in PDF format for personal use, job applications, or further studies. Request New Certificates: • Request Form: A simple form for students to request new certificates or re-issuance of lost or damaged certificates. • Course Selection: Students select the course for which they need a certificate. Reason for Request: Students provide a reason for requesting a new certificate, such as loss, damage, or corrections needed. • Additional Information: Any additional details that may be necessary for processing the request, such as updated personal information or special instructions. • Submit Request: After filling out the form, students submit their request for review. Request Status Tracking: Students can track the status of their certificate requests, including pending, approved, or rejected statuses, and any comments from the administration.

V. Payment Gateway

The payment gateway is an integral part of multiple modules within the system, facilitating secure and efficient financial transactions. Below are the detailed functionalities and requirements for the payment gateway:

Core Features:

- **Dynamic Payment Amount:**

The payment gateway must be able to dynamically take the payment amount based on the specific fee type or requirement (e.g., admission fee, examination fee, caution fee, course fee).

- **Multiple Payment Options:**

The gateway should support a variety of payment methods, including:

- UPI (Unified Payments Interface)
- Credit Cards
- Debit Cards
- Net Banking
- Wallets and other popular digital payment methods.

- **Single Account Configuration:**

All transactions should be routed to a single, pre-configured account. This ensures that all collected fees are consolidated in one place for easier financial management and reconciliation.

- **Receipt Generation:**

Upon successful payment, the gateway should automatically generate and provide a digital receipt to the payer. This receipt should include details such as the amount paid, date of payment, transaction ID, and payer information.

- **Transaction Records:**

The payment gateway must maintain comprehensive records of all transactions. This includes:

- Transaction ID
- Payment Amount
- Date and Time
- Payer Details (such as student ID or INDoS No.)
- Payment Method Used

These records should be easily accessible for review and auditing purposes.

- **Security and Compliance:**

The gateway should adhere to the highest security standards, ensuring all transactions are encrypted and secure.

Compliance with relevant financial regulations and standards (such as PCI-DSS) must be ensured to protect sensitive payment information.

- **Integration:**

The payment gateway should seamlessly integrate with the existing modules in the system, such as the admission fee payment interface, Student's Portal fee payment options, and the admin panel for financial management.

- **User Notifications:**

Automated notifications should be sent to users upon successful payment, including payment confirmation and receipt.

In case of payment failures, users should receive clear instructions on how to retry or resolve the issue.

- **Administrative Control:**

Admins should have access to a dashboard that provides an overview of all transactions, pending payments, and any payment issues.

The dashboard should allow for the manual adjustment of transactions if necessary and provide reports for financial tracking and analysis.

By incorporating these features, the payment gateway will ensure a smooth, secure, and efficient payment process for all users, while providing robust administrative tools for managing and tracking financial transactions.

ANNEXURE 2/A - NON-DISCLOSURE AGREEMENT (NDA) FORMAT

NON-DISCLOSURE AGREEMENT

M/s Cochin Shipyard Limited, Perumanoor PO, Cochin-682015, (hereinafter called M/s CSL) has entered into a contract with M/s(Company Name), with its registered office at (Office address), (hereinafter called M/s (Company Name in Short) for the "Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years." in CSL, by placing Purchase Order (PO) (PO number) dt.(PO date) for an amount of RS.(PO Amount) on M/s(Company Name). As per confidentiality Clause (Clause no) of the PO, a Non-disclosure agreement has to be signed between M/s(Company Name) and M/s CSL for complying the same without any level of dilution.

This Non-Disclosure Agreement, dated as of (Agreement date) is made and signed between M/s CSL and M/s(Company Name) in connection with the Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years in CSL. M/s(Company Name) means any person employed by M/s(Company Name) either directly or through their sub-contractors or provisional employees or trainees working for the Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years in CSL and M/s CSL means any person of CSL employed either directly or through their sub-contractors or provisional employees working for CSL. In this Agreement, unless the context otherwise requires. M/s CSL and M/s (Company Name) shall hereinafter be jointly referred to as the "Parties" and individually as the "Party"- The Party hereinafter disclosing information shall be referred to as the "Disclosing Party" and the Party hereinafter receiving information shall be referred to as the "Recipient" or "Receiving Party".

If confidential information is in written form, the Disclosing party shall label or stamp the material with the word "Confidential" or some similar warning.

Nothing contained in this agreement shall be deemed to constitute either party a partner, joint venture or employee of the other party for any purpose.

The Non-disclosure agreement covers the following;

a) Information relating to the Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years in CSL. at M/s CSL shall not be disclosed by M/s (Company Name) to any agency or any other persons not officially concerned with such process. The undue use by M/s(Company Name) of confidential information related to the process may be treated as breach of confidentiality and dealt with accordingly. Except with the prior written consent of M/s CSL, M/s (Company Name) shall not at any time communicate either in hard copy form or electronic means or in any other mode to any other organization, person or entity any confidential information acquired in the course of the contract.

b) Neither Party will disclose to any third party without the prior written permission

consent of the other party any confidential information which is received from the other party for the purpose of providing or receiving services.

c) Each party will take measures to protect the confidential information of the other party that, in the aggregate are no less protective than those measures it uses to protect the confidentiality of its own comparable confidential information, and in any event, not less than a reasonable degree of protection. Both parties agree that any confidential information received from other party shall only be used for the purpose of providing or receiving services under the above referenced contract for Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years in CSL.

In this agreement "Confidential Information" shall mean any information relating to the Disclosing Party's business, commercial information or any information of a technical nature comprising inter alia products, processes, methodologies, frameworks, models, ideas, interpretations, Legal, technical and other documents, manuals, tariffs, standards, software, discs, reports, research, working notes, papers, data or information in wired or wireless mode, drawings, layout, installation details of any equipment/crane/machinery, data and techniques used by/owned by "Cochin Shipyard Limited" in connection with Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years in CSL. in whatever form, provided all oral disclosure of confidential information is submitted by the Disclosing Party in writing to the Recipient within 30 (thirty) days, indicating compliance to the terms of this agreement.

In due consideration of the above, Cochin Shipyard Limited Granting M/s (Company Name) access to the Confidential Information and vice-versa, the Parties undertake that:

1. Subject to Clause 8 below, the Recipient will keep the Confidential Information strictly confidential and will not disclose it to any third party without the Disclosing Party's prior written consent, at any point of time.

2. Confidential Information will be disclosed only to those personnel and permitted assigns of the Recipient who need access to the Confidential Information for the proper performance of their duties in relation to the project and only to the extent necessary for the purpose of Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years in CSL. The Recipient, will solemnly take required steps appropriately in all means to ensure that all personnel to whom access to the Information is given are aware of its confidentiality and that they are bound by restrictions at least as onerous as those placed on the Parties by the terms of this agreement.

3. The Parties acknowledge that some or all of the Information is or may be price sensitive information and that the use of such information may be regulated or prohibited by applicable legislations and the Recipient undertakes not to use any such Information for any unlawful purpose. On acquiring any Confidential Information, the Recipient shall comply with all applicable laws in India in relation to insider trading and otherwise the acquisition of securities.

4. The Recipient agree to indemnify and hold harmless the Disclosing Party, its partners and staff and any of the Disclosing Party's clients to whom the Information relates against all loss, damage and expense (including legal expenses relating to any actions, proceedings and claims brought or threatened) of whatsoever nature and howsoever

arising out of any breach by the Recipient of the confidentiality obligations under this Agreement.

5. Confidential Information disclosed to the Recipient will be used solely for the purpose of Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years in CSL.

6. The Recipient shall establish and maintain all reasonable security measures to provide for the safe custody of the Information in whatever form it may be and to prevent unauthorized access to it.

7. This Agreement shall remain in effect for 10 years from the Effective Date of this Agreement ("Term"). On completion of Development of official website & admission portal for METI (Marine Engineering Training Institute) - Cochin Shipyard Limited and providing Annual Maintenance Support Services (AMC) for 3 years in CSL, the Recipient shall return all the Confidential Information disclosed to the Recipient and any copies thereof in whatever form it may be including soft copies, electronic forms to the Discloser.

8. The obligations contained above shall not apply to any Information which is or subsequently comes into the public domain otherwise than through a breach of this agreement;

is already rightfully in the Recipient's possession;

is obtained by the Recipient from a third party without any restriction on disclosure;

The Recipient required to disclose by law or professional or regulatory obligation with the Disclosing Party's prior written consent.

9. Each party shall be responsible for any breach of this Agreement by any of their respective Representatives. If the Recipient becomes aware of any breach of confidence or threatened breach of confidence by any of the Recipient's direct employees or provisional employees including trainees or agents or sub-contractors, the Recipient will promptly notify the Disclosing Party of the same and give the Disclosing Party all reasonable assistance in connection with any proceedings which the Disclosing Party may institute against such persons. In case of breach of confidence, the damages will be assessed by the discloser and compensation claimed from the recipient as per the suitable laws as applicable in India including Indian Penal Code, Information Technology Act 2000, Intellectual Property law, Indian Contract Act, company laws and the jurisdiction for all such proceedings will be at the courts at Ernakulam.

10. The Recipient shall comply with the obligations set out herein throughout the tenure of contract and thereafter.

11. The Recipient acknowledges that the Disclosing Party shall retain the copyright and intellectual property rights in the Confidential Information and that the Receiving Party shall not copy, adapt, transmit through wired media or wireless media, modify or amend full or any part of the Confidential Information or otherwise deal with any part of the Confidential Information except with the prior express written consent of Disclosing Party during period of the above contract.

12. This Agreement shall be fully governed by and construed in accordance with the relevant laws of India and any dispute arising out of or in connection with this agreement shall be subject to the exclusive jurisdiction of Courts at Ernakulam only.

13. Notices: Any notice, claim or demand in connection with this agreement shall be given in writing to the relevant party at the address set out herein and sent by letter/fax shall be deemed received when properly sent, any notice sent by hand shall be deemed received when actually delivered and any notice sent by post shall be deemed received

72 hours after posting. A copy of all notices/replies sent between M/s CSL and M/s (Company Name) shall be emailed to (Company mail id) & harikrishnan.mk@cochinshipyard.in respectively.
